

FOOTHILLS RESIDENTS GET INVOLVED!!

What: Foothills Park & Recreation District is creating a Water Conservation Master Plan to promote sustainable use of water to maintain its parks, recreation, open space, and recreational facilities.

Community Meetings: All residents are invited to attend and participate in two public meetings. In June, a presentation will be provided regarding the purpose and goals of the project, the importance of water conservation and general strategies to save water. At the August meeting there will be a project overview, presentation of the initial design concepts, and will conclude with a facilitated discussion. Those who attend will be asked to participate and provide input on water usage and the maintenance practices of the District.

When:

Days/Times: Thursday, June 9th - 6:00pm
Thursday, August 11th – 6:00pm

Location: Peak Community & Wellness Center
6612 S. Ward Street, Littleton, CO 80127
Peak front desk: 303.409.2200
www.foothills.org

Kids are welcome! Light refreshments will be served.
