My Motto

"No human has the right to be an amateur in the matter of physical training. It is a shame for a human to grow old without seeing the beauty and strength of which his body is capable."

A Bit About Me

I've been an athlete my entire life, but I found my passion for fitness and exercise through my own experiences, struggling with my weight and body image. Exercise and nutrition helped me gain the tools I needed to not only lead a healthy and active life, but also to live life fully and enjoy every minute of it. I believe with exercise and nutrition, you can truly heal your body, soul and mind; and give yourself the health and freedom to truly enjoy your life. I love teaching people proper strength training principles, how to eat healthily, and how to use that strength in their life and sport.

A Bit About Me

My interest in fitness and health began at home as a kid – my parents were always interested in eating healthy fresh foods and exercising daily. My interest grew when I began working for gyms throughout college. I decided at that point to include health and fitness in my career. After college, I began working in a local health food store in the supplement department. I found that I really enjoyed it! After 8 years working in supplements, I decided to also follow my other passion and started a new career as a Personal Trainer. Now I can share my enthusiasm about fitness, supplements and healthy eating.
