My interest in fitness and health began at home as a kid – my parents were always interested in eating healthy fresh foods and exercising daily. My interest grew when I began working for gyms throughout college. I decided at that point to include health and fitness in my career. After college, I began working in a local health food store in the supplement department. I found that I really enjoyed it! After 8 years working in supplements, I decided to also follow my other passion and started a new career as a Personal Trainer. Now I can share my enthusiasm about fitness, supplements and healthy eating.
