A Bit About Me

I have been personal training for over 20 years and I hold a B.S. in Nutrition from the University of New Mexico (Go Lobos!). My background also includes having been a collegiate and international swimmer. I have been around athletics my whole life, including following my husband around Europe while he played professional basketball. My love for exercise began at a young age and continued to grow watching my paralyzed grandfather workout 3 hours a day consistently. Seeing the affects that exercise and nutrition had on contributing to a long and healthy life was inspiring, and becoming a trainer only seemed natural. In my spare time, I love competing in triathlons, swimming & running events.

A Bit About Me

My interest in fitness and health began at home as a kid – my parents were always interested in eating healthy fresh foods and exercising daily. My interest grew when I began working for gyms throughout college. I decided at that point to include health and fitness in my career. After college, I began working in a local health food store in the supplement department. I found that I really enjoyed it! After 8 years working in supplements, I decided to also follow my other passion and started a new career as a Personal Trainer. Now I can share my enthusiasm about fitness, supplements and healthy eating.
